

Annual Report on Human Subjects Research

State Fiscal Year 2023: July 1, 2022 – June 30, 2023

To the Governor and the General Assembly of Virginia

July 19, 2023

Virginia Department for Aging and Rehabilitative Services Human Research Review Committee 2023 Annual Report

The Code of Virginia §51.5-132 directs the Department for Aging and Rehabilitative Services' (DARS) Human Research Review Committee (HRRC) to submit to the Governor, the General Assembly, and the DARS Commissioner, at least annually, a report on the human research projects reviewed and approved by the HRRC, including any significant deviations from the research applications, as approved by the Committee. The HRRC has internal oversight responsibilities for ensuring protection of the rights and welfare of clients and employees who volunteer to participate in research conducted or authorized by DARS. The DARS Commissioner established the HRRC in August 2000 to review and approve research proposed or authorized by DARS, the Wilson Workforce and Rehabilitation Center (WWRC), Centers for Independent Living (CIL), Employment Service Organizations (ESO) that have a vendor relationship with DARS, and Area Agencies on Aging (AAA).

The HRRC complies with federal requirements for the Protection of Human Subjects (45 CFR 46). The US Department of Health and Human Services approved the HRRC Federal wide Assurance (FWA#00008936) beginning August 15, 2005. The FWA is currently effective through January 25, 2026. The HRRC conducts three types of reviews: Exempt Review (regulatory oversight not required), Expedited Review (application reviewed and approved by one or more HRRC members) and Full Committee Review (a quorum of members in attendance). There was one new application reviewed during the state fiscal year (SFY) 2023. Four studies were amended or continued, and three studies were closed.

To the best of the Committee's knowledge, the HRRC reviewed all research involving human volunteers conducted or authorized by DARS, WWRC, CIL, ESO or AAA during SFY 2023. The HRRC has no evidence suggesting that there were any significant deviations from study procedures, as approved by the HRRC, for the studies approved, amended, or continued during SFY 2023. Composition of the HRRC is governed by 22 VAC 30-40-60 and 45 CFR 46.107. As of July 1, 2023, the HRRC had five members and one alternate. This document is the HRRC's twenty-third Annual Report. I wish to express my appreciation to the members of the HRRC for their commitment to supporting this important endeavor.
